A Study on Advertising Strategies of Yana Travels, Bengaluru

K Srikanth Bhatta¹, Dr. Susheeladevi B Devar²

¹Student, ²Associate Professor, Department of MBA, Dr. Ambedkar Institute of Technology, Bengaluru – 560056

Abstract: Advertising strategies refer to the overall plan or approach that a business or organization uses to promote its products or services to a target audience. These strategies are designed to create awareness, generate interest, and ultimately persuade potential customers to take specific actions, such as making a purchase, signing up for a service, or engaging with a brand.

Advertising strategies refer to the planned approach businesses use to promote their products or services to target audiences, aiming to achieve specific marketing objectives such as brand awareness, customer engagement, and sales growth. In this study, we delve into the advertising strategies adopted by travel companies, examining how these firms design and execute campaigns to stand out in a highly competitive industry. With the rise of digital platforms and evolving consumer preferences, travel companies are now leveraging diverse advertising channels, including social media, influencer partnerships, search engine optimization (SEO), and paid online ads, alongside traditional media such as television and print. This article explores how these strategies are crafted to resonate with various customer segments, address market seasonality, and enhance brand visibility. The research also evaluates the impact of these advertising efforts on customer engagement, brand loyalty, and return on investment (ROI). By offering insights into successful marketing approaches, this study aims to guide travel companies in refining their advertising strategies to stay competitive in a rapidly changing marketplace.

Keywords: Advertising strategies, brand awareness, digital marketing, traditional media, social media marketing, influencer marketing, search engine optimization (SEO), pay-per-click (PPC), customer engagement.

I. INTRODUCTION

In today's competitive travel industry, an effective advertising strategy is essential for businesses like Yana Travels to stand out and attract customers. Advertising strategy refers to the plan and tactics a company uses to promote its products or services, with the goal of reaching a specific target audience and increasing brand awareness. For Yana Travels, a comprehensive advertising strategy encompasses both traditional and digital media, aiming to highlight its unique offerings, such as personalized travel experiences, competitive pricing, and exceptional customer service.

Through strategic ad placements, social media campaigns, search engine marketing, and partnerships with travel influencers, Yana Travels seeks to engage potential travellers, build trust, and establish itself as a go-to option for domestic and international journeys. By tailoring its messaging to resonate with different traveller demographics such as adventure seekers, family vacationers, or business travellers—Yana Travels can maximize its reach and drive more bookings, ultimately enhancing its market situation in the travel industry.

III. OBJECTIVES

- 1) To analyse the advertising strategy of the travel agency.
- 2) To study the various factors of Yana Travels.
- 3) To suggest the modern advertising strategies Yana travels.
- 4) To meet the customer's expectation travelling regularly in Yana travels.
- 5) To know the customers point of view towards Yana travels.

IV. STATEMENT OF THE PROBLEM

Travel companies face a growing challenge in creating and executing effective advertising strategies that can capture the attention of an increasingly selective and digitally savvy audience.

The rise of digital platforms has transformed how potential customers discover, engage with, and book travel experiences, making traditional advertising channels less effective in isolation. Companies are required to balance the use of digital marketing, such as social media, SEO, and influencer campaigns, with traditional forms of advertising to maximize brand visibility and customer acquisition. Moreover, identifying the right mix of these strategies that aligns with consumer behavior, market trends, and budget constraints is critical.

The problem lies in how travel companies can optimize their advertising efforts to not only increase brand awareness but also improve customer engagement and conversion rates while maintaining a favorable return on investment (ROI).

VIII. CONCLUSION

As survey is conducted, also the findings are made, we can find that majority of the respondents have positive opinion on the service providing of Yana Travels. In travel services minor delays are common as of it have to deal with traffic in cities & also to face the hills sections that covers with fog which make roads invisible & give a way to major & minor delay which effect the service providing. As we see major respondents have positive impression on company services that it provides, as well as it revolutionizing the procedures & add on the better one, advanced facilities like GPS tracking system are been installed which helps customer to present the & know the location in which they are in. At last this study interprets about the customer satisfaction level, their preferences, & to know the service providing status of the company at present.

IX. SUGGESTIONS AND RECOMMENDATIONS

It is suggested that Yana Travels has the focus to cover the village areas to render the services of tours & travels, as well as awareness about the company through the means of advertisement. Company is providing on time services that it should continue in future as well. Company should reduce the extra charges to provide good offers that attracts other customers too. Company need to concentrate on advertising a lot to build public relation that catch the attention of the customers. Company should concentrate on opening up of new branches that covers generally most all areas of Bangalore.
