Indias Progress Towards Achieving Sustainable Development Goals

Ranjith R¹, Ronit Kumar², Satya Prakash Sahoo³
^{1, 2, 3}Xavier Institute of Management and Entrepreneurship

Abstract: This study aims to analyze the India's progress towards achieving sustainable development goals framed by UN, which has to be achieved before 2030. In this article we discussed about position of various states under different parameters. This article discuss about the major milestones achieved by India in progress towards achieving SDG. This article also discuss about obstacles faced by India towards achieving sustainable development goals and how it can overcome from it to achieve the goal.

Keywords: Sustainable development, Goals of Sustainable development, India's progress in SDG, Good Health and wellbeing.

I. INTRODUCTION:

A. Sustainable Development

Sustainable development is development that meets the requirements of the present without compromising the capability of unborn generations to meet their own requirements. (World Commission on Environment and Development, Our Common Future(1987), Brundtland Report.)

B. Sustainable Development Goals

The Sustainable Development Goals(SDGs) or Global pretensions are a collection of 17 connected global pretensions designed to be a " participated design for peace and substance for people and the earth, now and into the future ". The SDGs were set up in 2015 by the United Nations General Assembly and are intended to be achieved by 2030. They're included in an UN-GA Resolution called the 2030 docket or what's colloquially known as Agenda 2030. The SDGs emphasize the connected environmental, social and profitable aspects of sustainable development, by putting sustainability at their center.

C. 17 Sustainable Development Goals

- 1) No poverty,
- 2) zero hunger,
- 3) Good health and well-being,
- 4) Quality education,
- 5) Gender equality,

- 6) Clean water and sanitation,
- 7) Affordable and clean energy,
- 8) Decent work and economic growth,
- 9) Industry, Innovation and Infrastructure,
- 10) Reduced Inequality,
- 11) Sustainable Cities and Communities,
- 12) Responsible Consumption and Production,
- 13) Climate Action,
- 14) Life Below Water,
- 15) Life On Land,
- 16) Peace, Justice, and Strong Institutions,
- 17) Partnerships for the Goals.

D. NITI Aayog

The NITI Aayog (National Institution for Transforming India) serves as the apex public policy think tank of the Government of India, and the nodal agency assigned with catalyzing profitable development, and fostering collaborative federalism through the involvement of State Governments of India in the profitable policy-making process using a bottom-up approach. Its enterprise include "15- time road chart", "7- time vision, strategy, and action plan", AMRUT, Digital India, Atal Innovation Mission, Medical Education Reform, husbandry reforms (Model Land Leasing Law, Reforms of the Agrarian Produce Marketing Committee Act, Agricultural Marketing and Farmer Friendly Reforms Index for ranking countries), Indices Measuring States Performance in Health, Education and Water Management, Sub-Group of Chief Ministers on Vindication of Centrally Sponsored Schemes, Sub-Group of Chief Ministers on Swachh Bharat Abhiyan, Sub-Group of Chief Ministers on Skill Development, Task Forces on Agriculture and up of Poverty, and Transforming India Lecture Series. It was established in 2015, by the NDA government, to replace the Planning Commission which followed a top-down model. The NITI Aayog council comprises all the state Chief Ministers, along with the Chief Ministers of Delhi and Puducherry, Lieutenant Governors of all UTs, and a vice-chairman nominated by the Prime Minister. In addition, temporary members are named from leading universities and exploration institutions. These members include a principal administrative officer, four ex-official members, and three part-time members.

E. NITI Aayog Role in Implementing Sustainable Development Goals

NITI Aayog has the binary accreditation to oversee the relinquishment and monitoring of the SDGs in the country and promote competitive and collaborative federalism among States and UT's. The task at hand for NITI Aayog isn't just to periodically collect data on SDGs but to proactively realise the pretensions and targets.

II. PARTNERS

A. United Nations Resident Coordinator's Office (UNRCO)

The SDG India Index and Dashboard are products of the cooperation between the SDG Vertical and UNRCO. Both parties also banded in 2019 on a knowledge product named 'Localising SDGs Beforehand Assignments from India', which details the gests of and literacy from the localisation sweats of all States and UTs. The SDG Vertical, UNRCO, and the Ministry of Statistics and Programme perpetration (MoSPI) unite on the SDG Data Forum for supporting data, pointers, and statistics for covering SDGs in India.

B. United Nations Development Programme (UNDP)

UNDP is the Vertical's mate for the localisation sweats. The shops and other engagements with the States/ UTs led by NITI Aayog are supported by UNDP. Both parties also unite on the enterprise on multidimensional poverty dimension and reduction. The cooperation has been formalised through an MoU inked by both organisations in August 2020.

C. Deutsche Gesellschaft Für Internationale Zusammenarbeit (GIZ):

The Vertical and GIZ have entered into a cooperation to take SDG localisation to the megacity position. Both parties will unite on developing an indicator and dashboard to cover and report the progress on achieving the SDG targets at the megacity position. The collaboration also aims at training and capacity- structure programmes on data-driven civic governance for civic original bodies' officers. The cooperation has been formalised through an MoU inked in October 2020.

D. Oxford Poverty And Human Development Initiative (OPHI)

OPHI, UNDP, and the SDG Vertical entered into a cooperation for multidimensional poverty dimension and reduction. The development of the public MPI is an affair of the collaboration. The cooperation also extends to designing a reform action plan for faster poverty reduction.

E. KPMG

The SDG Vertical mates with KPMG and UNRCO on private sector integration for SDGs, which aims to measure the impact of the business sector on the SDGs.

F. Primus Partners

Primus mates, UNDP, and the SDG Vertical have banded on developing an online platform to grease the magnet of SDG- linked investments.

III. REVIEW OF LITERATURE

Ahmad Mohd Khalid et al, 2020 The sustainable development pretensions(SDGs) were result of expansive stakeholder participation and global agreement. Despite large pledges, there's an adding concern among the member states whether SDGs address real problems of nations, particularly the developing world. This study discusses crucial issues raised by developing countries with respect to the SDGs. Using opinion of experts on SDGs regarding its counteraccusations and future, a case study for India is presented. The study with its findings and policy recommendations intend to profit SDG perpetration sweats and planning at the public and sub-national position in India and other developing countries, helping them redesign and probe their public SDG perpetration strategies on analogous lines as India to ameliorate its reach and effectiveness.

Basant Kumar Panda et al, 2018 The Sustainable Development Goals(SDGs) are decreasingly being used to measure experimental progress among and within countries. Achieving the health- related SDGs remains a primary concern of numerous developing countries. This study measured the progress in named health-affiliated pointers of SDGs in the countries of India by social and profitable groups, and prognosticated their likely progress by 2030. The health pointers analysed included health issues, nutrition, health care application and determinants of health. Data from the Census of India, Sample Registration System(SRS), National Family and Health checks(NFHSs) and National Sample Survey Organization(NSSO) were used in the analysis. Periodic rate of progress(ARP) and the needed rate of progress(RRP) were reckoned for named pointers over the period 2005 – 06 to 2015 – 16. A Composite Index of Health(CIH) was used to understand the state of health of populations. The ARP was advanced than the RRP in motherly care and reduction of under- five mortality, while ARP was lower than the RRP in undernutrition and sanitation. The ARP for health-affiliated pointers showed a mixed pattern across religion and estate groups. The ARP for medical backing at birth and immunization was loftiest among slated gentries and that for reduction of under- five mortality was loftiest among slated lines. The CIH was smallest in Uttar Pradesh(0.26) and loftiest in Goa(0.81). The association between the CIH and the Human Development Index(HDI) was significant, suggesting interlinkage between health and development. Notable advancements were observed in motherly and child health and motherly health care application across social groups in India over the period 2005 – 06 to 2015 – 16, and if the trends continue the country can achieve the SDG target in motherly health by 2030. still, progress in nutrition and other health pointers has been slow and uneven.

Mohammad Asim Nomani et al, 2016 Energy policy, environmental planning and profitable development play a crucial part in sustainable development. Sustainable development requires suitable and strategic programs satisfying multiple and disagreeing objects. Fuzzy thing programming(FGP) is a well- known approach in multi-criteria decision- making for its practical operation. In this composition, a FGP approach is proposed to assay environmental, energy and sustainability pretensions of India by the time 2030 with reference to the crucial profitable sectors of India. The presented model analyses the enhancement openings, demand of sweats and perpetration of the sustainable development plans. Numerical illustration is also handed for confirmation and operation of the proposed model.

IV. INDEX SCALE

A. India's Progress Towards Sustainable Development Goals

1) GOAL 1: NO POVERTY (End Poverty in all its forms far and wide)

Performance of a State and UT's towards achieving goal 1 is prognosticated by measuring the countries;

- a) Poverty Rate
- b) Multi-Dimensional Poverty %
- c) Health Insurance Coverage
- d) MGNREDA, 2005
- e) Maternity Benefits
- f) Household living in Katcha Houses

S.NO	States	A	B	C	D	E	F	SDG 1 Index Score
	Target	10.96	13.95	100	98.95	100	0	100

22.	Bihar	33.74	52.5	12.3	78.6	87.97	8.2	32

2) **GOAL 2: ZERO HUNGER** (End Hunger, achieve food security, ameliorate nutrition and promote sustainable husbandry)

Performance of a State and UT's towards achieving goal 2 is prognosticated by measuring the countries;

- a) Food Subsidy
- b) Children Underweight
- c) Stunting
- d) Anaemia among women
- e) Agriculture productivity
- f) Gross Value added in Agriculture

4) **GOAL 4: QUALITY EDUCATION** (Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all)

Performance of a State and UT's towards achieving goal 4 is prognosticated by measuring the countries;

- a) Enrolment ratio in elementary education
- b) Average annual dropout rate
- c) Enrolment ration in higher secondary
- d) Student proficiency in class 8
- e) Enrolment ratio in higher education
- f) Education level among person with disability
- g) Gender parity in higher education
- h) Literacy levels
- i) Infrastructure in Schools
- j) Proportion of trained teachers
- k) Pupil teacher ratio

5) GOAL 5: GENDER EQUALITY (Achieve gender equality and empower all women and girls)

Performance of a State and UT's towards achieving goal 5 is prognosticated by measuring the countries;

- a) Crime against Women
- b) Sex Ratio
- c) Wage gap among regular employees
- d) Domestic violence
- e) Women in leadership
- f) Female labor force participation
- g) Women in Managerial positions
- h) Family planning
- i) Operational landholdings

6) GOAL 6: CLEAN WATE AND SANITATION (Ensure availability and sustainable management of water and sanitation for all)

Performance of a State and UT's towards achieving goal 6 is prognosticated by measuring the countries;

- a) Access to piped water supply
- b) Access to improved sources of Drinking Water
- c) Individual household toilets
- d) Open defecation free districts
- e) Schools with separate toilet facilities for girls
- f) Waste water treatment
- g) Groundwater withdraw against availability
- h) Over Exploited blocks

VI. FINDINGS OF NITI AAYOG REPORT

S.NO	GOAL	FINDINGS
1.	GOAL 1	<ul style="list-style-type: none"> • 270 MILLION people lifted out of multi-dimensional poverty. • 28.7% households have at least one member covered under HEALTH INSURANCE OR HEALTH SCHEME. • 84.44% beneficiaries PROVIDED EMPLOYMENT under MGNREGA in 2019-20. • 4.2% households in rural and urban India LIVE IN KATCHA HOUSES. • 91.38% eligible beneficiaries received social protection benefits under the PRADHAN MANTRI MATRU VANDANA YOJANA.
2.	GOAL 2	<ul style="list-style-type: none"> • 99.51% BENEFICIARIES covered under the NATIONAL FOOD SECURITY Act, 2013 in 2019-20. • 28.4% ADOLESCENTS aged 10–19 years are ANAEMIC. • 33.4% children aged under five are underweight. • 34.7% children aged under five are stunted. • 2,995 Kg/ha ANNUAL AGRICULTURAL PRODUCE of rice and wheat. • 0.71 lakhs GROSS VALUE ADDED (GVA) in agriculture PER WORKER.
3.	GOAL 3	<ul style="list-style-type: none"> • 113 MATERNAL MORTALITY RATIO per 1,00,000 live births. • 36 CHILDREN aged under five years DIE for every 1,000 live births. • 37 PHYSICIANS, NURSES AND MIDWIVES per 10,000 population. • 177 TUBERCULOSIS CASES notified per 1, 00,000 population. • 0.05 HIV INCIDENCE per 1,000 uninfected population in 2019 from 0.07 in 2017. • 13% of monthly per capita household consumption EXPENDITURE IS ON HEALTH. • 94.4% of TOTAL DELIVERIES reported happen in health institutions. • 91% CHILDREN aged 9-11 months IMMUNISED.
4.	GOAL 4	<ul style="list-style-type: none"> • 87.26% ADJUSTED NET ENROLMENT RATIO at elementary (class 1-8) education. • 50.14% GROSS ENROLMENT RATIO for higher secondary education. • 26.3% students aged 18-23 years ENROLLED IN HIGHER EDUCATION. • 71.9% Class 8 students achieved MINIMUM PROFICIENCY IN LANGUAGE AND MATHEMATICS. • 74.6% LITERACY LEVEL among persons aged 15 years and above. • 19.3% PERSONS WITH DISABILITIES (15 years and above) completed at least secondary education. • 1 GENDER PARITY INDEX 1 implies parity between females and males in Higher Education (18-23 years). • 84.76% schools had ACCESS TO ELECTRICITY AND DRINKING WATER. • 83% TRAINED TEACHERS in secondary schools. • 21 PUPIL TEACHER RATIO at secondary level.
5.	GOAL 5	<ul style="list-style-type: none"> • 8.46% seats in the STATE LEGISLATIVE ASSEMBLIES held by women. • 0.33 Ratio of Female to Male LABOUR FORCE Participation Rate as against 1

		<ul style="list-style-type: none"> • 899 SEX RATIO AT BIRTH (females per 1,000 males) • 72% of married women have their demand for FAMILY PLANNING met by modern methods. • 62 cases of CRIME AGAINST WOMEN ARE REGISTERED for every 1,00,000 female population. • 190 among every 1,000 persons in MANAGERIAL POSITIONS are women. • 13.96 % OPERATIONAL LANDHOLDERS are female. • 33% HIGHER WAGES FOR MEN THAN women in rural and urban India.
6.	GOAL 6	<ul style="list-style-type: none"> • 100% districts verified as OPEN DEFECATION FREE (ODF). • 100% IHHL constructed against target (SBM-G). • 95% schools have SEPARATE TOILET FACILITIES FOR GIRLS. • 51.36% rural population receives SAFE AND ADEQUATE DRINKING WATER through piped water supply. • 97.44% rural population have access to IMPROVED SOURCE OF DRINKING WATER. • 88.4% polluting industries COMPLY WITH Central Pollution Control Board NORMS FOR WASTE WATER TREATMENT.
7.	GOAL 7	<ul style="list-style-type: none"> • 99.99% of households have ACCESS TO ELECTRICITY.
8.	GOAL 8	<ul style="list-style-type: none"> • 5.1% annual growth rate of India's GDP PER CAPITA at constant prices in 2018-19. • 6.2% UNEMPLOYMENT RATE. • 53.6% LABOUR FORCE PARTICIPATION Rate. • 52% salaried employees in nonagricultural sector have NO SOCIAL SECURITY COVER. • 99.99% households have BANK ACCOUNTS under PMJDY against the target. • 55.3% Pradhan Mantri Jan Dhan Yojana ACCOUNTS HELD BY WOMEN. • 12 Banking outlet per 100000 population. • 17 ATM per 100000 population.
9.	GOAL 9	<ul style="list-style-type: none"> • India's rank among 131 countries in the GLOBAL INNOVATION INDEX, 2020, by WIPO 48th. • 98% TARGETED HABITATIONS COVERED with all-weather roads under PMGSY HAVE A MOBILE CONNECTION HAVE INTERNET SUBSCRIPTION. • 16.1% of total GROSS VALUE ADDED is from MANUFACTURING SECTOR. • 12.07% of TOTAL WORKFORCE EMPLOYED in the manufacturing sector. • 84 Have mobile / 100. • 55 Have Internet subscription / 100.
10.	GOAL 10	<ul style="list-style-type: none"> • 64% TRANSGENDER LABOUR FORCE PARTICIPATION rate as compared to the male labor force participation rate. • 45.62% SEATS of Panchayati Raj Institutions HELD BY WOMEN. • 14.39% total SEATS in Lok Sabha elections WON BY WOMEN. • 28.35% REPRESENTATION of SC/ST persons IN STATE LEGISLATIVE ASSEMBLIES.
		<ul style="list-style-type: none"> • 39% INSTALLED SEWAGE TREATMENT CAPACITY as a proportion of sewage generated in urban areas.

11.	GOAL 11	<ul style="list-style-type: none"> • 87.6% URBAN HOUSEHOLDS have DRAINAGE FACILITY. • 97% wards have 100% DOOR TO DOOR WASTE COLLECTION. • 78.03% wards have 100% SOURCE SEGREGATION. • 68.1% of the MUNICIPAL SOLID WASTE generated gets PROCESSED. • 0.8% of urban households LIVE IN KATCHA HOUSES. • 12 persons were killed in ROAD ACCIDENTS in urban areas for every 1,00,000 population.
12.	GOAL 12	<ul style="list-style-type: none"> • 157.3 KG of FOSSIL FUEL CONSUMED per capita. • 7.62 MW installed capacity of GRID INTERACTIVE BIO-POWER per one million population. • 2.5 TONNES of PLASTIC WASTE per annum GENERATED per 1,000 population. • 87% of the BIOMEDICAL WASTE GENERATED treated. • 8.09 TONNES per annum HAZARDOUS WASTE GENERATED per 1,000 population. • 44.89% HAZARDOUS WASTE RECYCLED/UTILIZED of total hazardous waste generated.
13.	GOAL 13	<ul style="list-style-type: none"> • 15 lives lost DUE TO EXTREME WEATHER EVENTS in 2018 to 2019 per 10 million people. • 3469 DISABILITY ADJUSTED LIFE YEAR RATE (per 1,00,000 population): Years of healthy life lost to premature death or ill-health due to air pollution. • 36.37% ELECTRICITY GENERATION is FROM RENEWABLE ENERGY. • 38.6 mt CO₂ SAVED by switching to LED BULBS.
14.	GOAL 14	<ul style="list-style-type: none"> • 4975 sq km AREA UNDER MANGROVES. • 30% of 0.53 million hectares brackish water area DEVELOPED FOR AQUACULTURE.
15.	GOAL 15	<ul style="list-style-type: none"> • 25% geographical area UNDER FOREST AND TREE COVER. • 1.7 million hectares are covered under AFFORESTATION SCHEMES. • 28% of the TOTAL LAND AREA is DEGRADED. • 296 WILDLIFE CRIME cases reported in 2019. • 15 Wildlife crime CASES PER MILLION HECTARES of protected area
16.	GOAL 16	<ul style="list-style-type: none"> • 3.17 CASES of CORRUPTION CRIMES REPORTED per one million population. • 93.24% of the POPULATION is UNDER AADHAAR coverage. • 1.85 COURTS per one lakh population. • 89.3% BIRTHS REGISTERED in 2018. • 5 PERSONS per 10 lakh population VICTIM OF HUMAN TRAFFICKING. • 2.2 MURDERS per 1,00,000 population. • 33 CASES per 1,00,000 children COGNIZABLE CRIMES AGAINST CHILDREN. • 16 CHILDREN MISSING per 1,00,000 child population.

VII. CONCLUSION

India isn't placed well to achieve the United Nations- commanded Sustainable Development Goals(SDG) and its preparedness has worsened over the times in comparison with other countries.

A. The Major Challenges Include

- 1) The country continues to face major challenges in achieving 11 of the 17 SDGs, which has pushed down its global ranking on SDG preparedness.
- 2) Ensuring decent work(SDG 8) has come more grueling .
- 3) According to the report, India is on track to achieving SDG 13 on climate action. still, The State of India's Environment, 2022 flagged that the country was facing major challenges in this area. India's performance on climate action —(SDG) 13 — has slipped from 2019- 2020.
- 4) This decline in India's overall performance is primarily due to eight countries — Bihar, Telangana, Rajasthan, Uttar Pradesh, Karnataka, AP Pradesh, Punjab and Jharkhand — whose scores have dipped under SDG 13 in the two times.

B. Progress Made

- 1) The progress in around 10 of these pretensions is analogous to those in 2021.
- 2) These include SDG 2 on ending hunger, SDG 3 on good health and good and SDG 6 on clean water and sanitation.

C. Recommendations

- 1) New hookups and inventions should be Gauged- up.
- 2) New Hookups and inventions that surfaced during the Covid- 19 epidemic, including in scientific cooperation and data, should be gauged - up to support the SDGs.

D. Science and Technological inventions

- 1) Science, technological inventions, and data systems can help identify results in times of heads and can give decisive benefactions to address the major challenges of our times.
- 2) These call for increased and dragged investments in statistical capacities, Research & Development and education and chops.

E. Adding Investment

- 1) Achieving the SDGs is unnaturally an investment docket in physical structure(including renewable energy, digital technologies) and mortal capital(including health, education).
- 2) Yet the poorest half of the world lacks request access to capital on respectable terms.
- 3) Poor and vulnerable countries have been hit hard by the multiple heads and their slip overs.
