Keywords: History, Functions, Current Position of Financial, Sustainable Development for SSSBN,

I. INTRODUCTION

The principle of co-operation is as old as human society and it forms the basis of domestic and social activities in the area. It is information about the financial sources and human beings of the socio-economic development and up liftmen of oriented services in urban in the state. The history of modern civilization is in fact the history of co-operation, for without it social and economic development progress would have been impossible. The Co-operative Credit Societies Act (CCSA) was established in 1904 of the Co-operative Movement in India. The First Co-operative Society of our state was registered in 1905 at Kanaginahal village in Gadag District of Karnataka. Sri Siddana gowda Sannaramana gowda Patil is considered as the pioneer in the Co-operative Movement as he is the president of founder the said co-operative society in Karnataka state. In Karnataka occupies third position in the Co-operative Movement in India. It has been playing an important role in improving the socio-economic condition of rural and urban peoples involved in Co-operative Movement and has spread to almost all sectors of economic growth activities, both in rural and urban areas. The co-operative credit structure through self-governance and independent decision making has come in to being and it is hoped that the co-operatives will become professionally efficient and financially viable in the years to come. The state has witnessed a tremendous economic growth in the co-operative sector in the state.

II. OBJECTIVES OF THE STUDY

The following are the objectives of the study
