MHRS (Mid Head Root Solution)

Gyane Das Manikpur

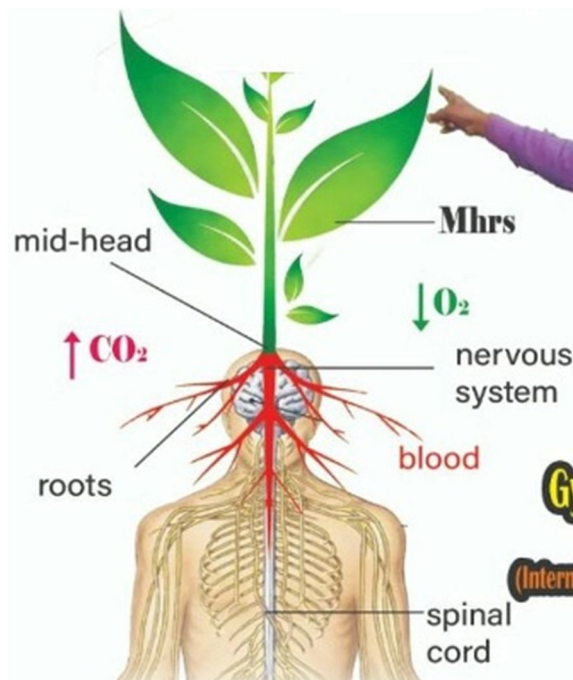

(MSW) Advisor Advance Acupressure in neurological acute and Cronin Diseases, Meditation

Abstract: I think human life is very precious. If it is necessary to get lost in this life by busy life, then we have to arrange many things which will be so expensive. Which would be impossible to imagine, do you want such a life, do you want our human life to be a happy life lasting for centuries in which happiness, peace, love, kindness, forgiveness Life, progress and powerful life which is always healthy, in which natural qualities are included in a smooth manner so that human life is happy and disease free! If human life is to be spent naturally then we need to know carefully about important medicine in the field of medicine! So that in the future expensive medicine surgery and other therapies which are becoming expensive which stand with fatal and risky compensation for human life, In this paper He Introduced a MHRS (Mid Head Root Solution). He proposed a method for Advanced Acupressure Research Neurological Acute and Chronic Disorder Health Benefit

Keywords: Meditation, Acupressure, Acupuncture, Yoga, Cronin Diseases,

I. INTRODUCTION

This solution is capable and effect miraculously meaningful and sustainable solution. The only tool that has been discovered in India, for the information of which we have been given complete information in the booklet "Another Letter of "Arogya", whose stories are a Shree is a young man who has reached the people through training, as per his workshop at the national level in rural, urban areas and other educational institutions from his penance for 15 consecutive years since 19 January 2003 continuously It has been known that this unique work is proving to be a boon for the welfare of human health! if it is necessary to spend this life busy in a run-of-the-mill life, then we have to arrange many things which will be so expensive whose welfare It would be impossible to achieve, do you want such a life, do you want our human life to be a happy life lasting for centuries in which happiness, peace, peace, peace, love, kindness, forgiveness, advancement and mighty life that is ever healed, In which the incorporation of natural qualities should go smoothly, so that human life is happy and disease free! If human life is to be spent naturally then we need to know carefully about important medicine in the field of medicine! So that in the future expensive medicine surgery and other therapies which are becoming expensive which stand with fatal and risky compensation for human life! The only solution is MHRS which is capable and effect miraculously meaningful and sustainable solution. The only tool that has been discovered in India,

II. OBJECTIVES

I am implied and certified that efforts are being made to disclose those secrets. So that for the young people to study, based on rare, natural and ancient Indian disciplines, training, establishment, “Ashtanga Yoga”, Meditation, modern research work by MHRS, can be effective and powerful in the field of education.

- 1) Establish a balance by making special efforts to make new young generations disease-free from genetic deformities.
- 2) To eliminate the side effects of international medicines for human birth welfare internationally.
- 3) To get information about malformations present in the entire body soon by performing health tests by MHRS method.
- 4) To achieve health care in emergency situations soon by the results obtained.
- 5) Health services to protect depressed patients from incurable disease and costly operations.
- 6) Natural brain by the middle brain, mysterious functions, balance, emission, consciousness power development system, importance of genetic properties, development, balance in nervous systems.
- 7) Introduction of the soul in the form of “Satpurush”, innumerable souls are aware of such facts, to inform the distortions arising in the body made of five elements by MHRS method.
- 8) Expressing voluntary and involuntary actions and activities in simple language.
- 9) Explain the importance of immersion system to make adaptation, according to seasons.
- 10) MHRS method to make aware of the serious consequences caused by irregular routines and tasks and to provide health benefits by giving proper advice and guidance in time.

A. Natural Properties Of Different Units

You know that at the time of creation, the actions of different systems of mutual natural properties of different units, structures, cells, internal and external organs of the human body, formed from the five elements, systematically, through dynamic movements, excretion, excretion, nutrition. Availability, sensations, operations, developmental processes, imbalance of hormones, systematic natural functioning of the nervous system, flow of momentum through the flow of current, which has the main roles in running the internal and external functions of the entire human body, that is, in the simplest terms we can say that the human body is rare and amazing in which all functions are regular, continuously moving.

B. Basic Problems

Due to irregularities, changes, imbalances in the normal amount of any nutrient, blood circulation, blood purification and other development work in the human body, all internal and external activities start to vary, which will have a profound effect on natural activity. Causing distortions or diseases in related organs or parts, which has a fatal effect on health the above-mentioned formations can be saved from future fatal incurable diseases and complex operations by doing proper counseling and health tests by MHRS method.

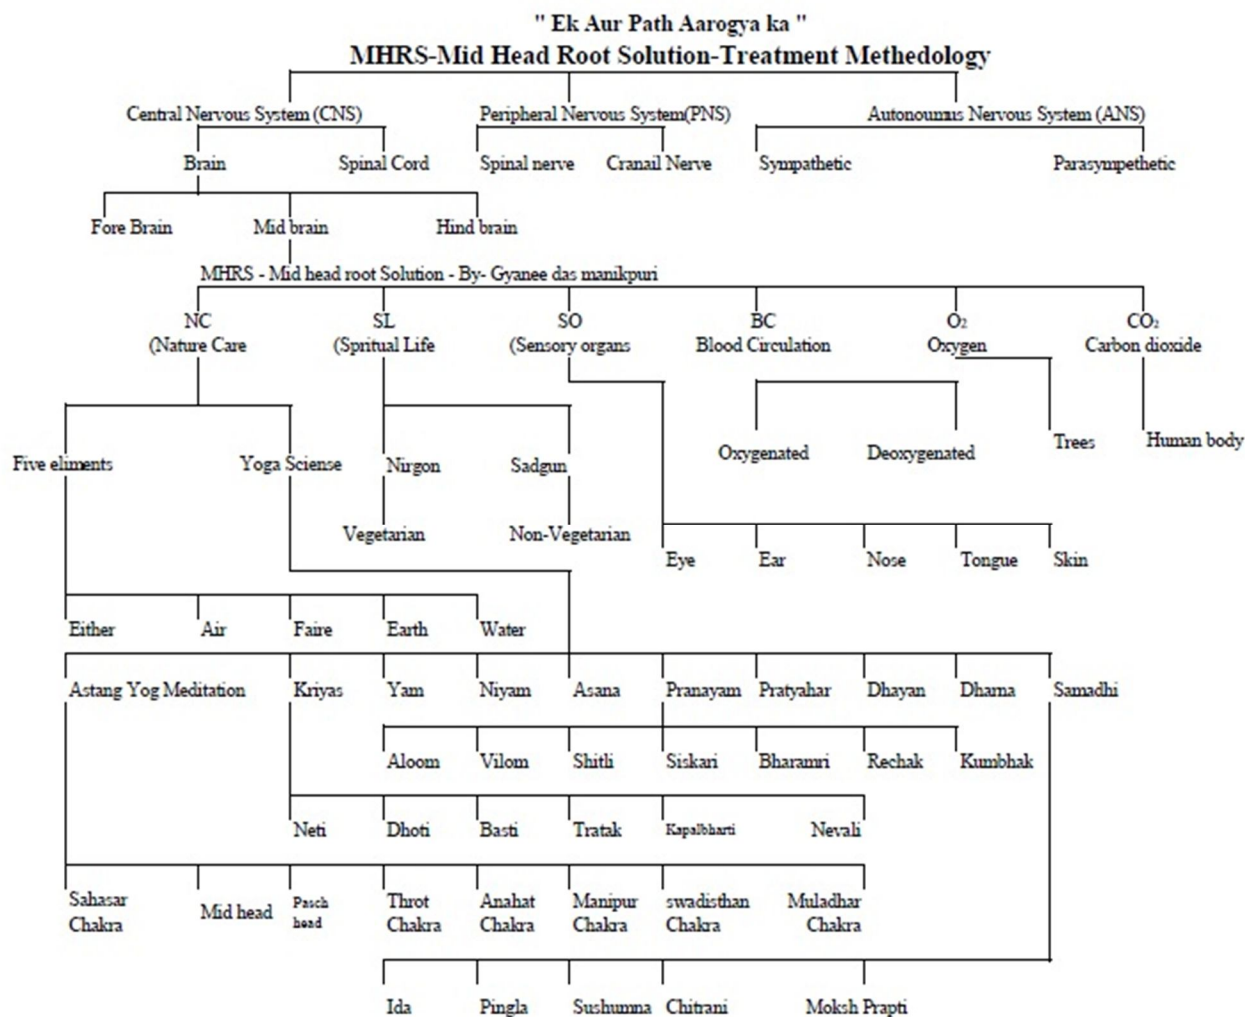

C. Proposed Solutions

Utility of natural energy ---- The utility of natural energy means that the utilization of atmospheric energy on various aspects in human life is constantly increasing day by day, which is a wonderful and unique natural paradigm for all of us, which gives us free auto : Keeps getting Where one has gone, what is free is precious. If it is used according to scientific reasoning in various fields according to need then in our daily life very advanced and longevity will prove to be a boon for the welfare of human health which is naturally present in the atmosphere which we can gain physically, financially, mentally by using atmospheric energy effect? So that new young generations can be protected from fatal incurable diseases like genetic pathologies For high quality health benefits, MHRS-Mead Head Root Solution is becoming the best medium to create the naturally beautiful, healthy, energetic distortions, which itself is a powerful and amazing mystical system of medicine with systematic treatment. Effective and effective in making important contribution for human health security cooperation by taking education Interest is a medical system that is trying to have simple, smooth, best and affordable health services naturally implemented by the middle brain.

Energies and well-being in meat muscles are sustained by

- 1) Natural atmospheric energy.
- 2) Mentally thoughtful, “Sanskar”, duty is a good medium to increase self-confidence.
- 3) The external and internal activities of the human body are constantly provided with pure environment and energy. Due to which physical,
- 4) Mental balance is maintained.

- 5) Different types of equipment are used in industrial areas, in which atmospheric energy is used in many areas as needed, especially for various aspects of various aspects like magnetic power.
- 6) Getting information from the meteorological department, information about earthquake and other space forces, radar, magnetic wavelengths, quick information about space mysterious properties from satellite is possible only with the energy of the atmosphere. This is called the utility of natural energy

Mysterious experiments of atmospheric energy through years of ascetics. This means that the various wonderful complexes like selfless spirit, wealth, self-awareness, celibacy, devouring food and renunciation, related meditation, "Kundalini" awakening, meditation, for the welfare of the people. By establishing harmony with actions, attaining self-peace, contentment, salvation, all of us, such great scholars, hold saintly body like a worldly soul, with respect to the mysterious sage sages. While saluting the powers gained by him by giving us a systematic study of various types of natural mysteries and events, informative information of various dimensions for human welfare, energy like natural substances which human public health welfare, scientific rationale of information given in other fields Based on the information of various aspects like modern research work All of you have been raised about the unique functioning of MHRS for medical education in the field of health, sincerely, I devotedly devoted to body and wealth in rural and urban areas for 15 years of continuous austerity. Giving awareness and health services in the field of health, thousands of disabled people, common man The doctors, giving health advice to the depressed patients over the years, giving proper advice and guidance, informing them about the commendable work done in other departments, inform them about the miraculous powers achieved by the sages,

D. Blood Circulatory System

Cells ----- The blood circulatory system means that the natural energy through various medium to the various organs of the human body is fulfilled by the power which we know in the simplest terms by the special blood circulatory process of the artery, vein. Which mainly consists of pure and impure blood called oxygenated blood and deoxygenated blood. This implies that various types of elements are present in the blood of human body. For example, various types of health tests are done by blood in consultation with medical experts of any system. This is a very secret and amazing process by which the internal and external activities produced in the body are easily understood. Health benefits are provided by Through the MHRS health test method, it is known that air from the supporting group in blood circulation has special importance through which blood circulation is continuous. Those who run continuously need oxygen to be considered, through which the availability and purification process of blood in the internal organs of the human body by the blood circulation process is continuous. Due to which the cells of the human body grow, supplying food.

E. Analytical Equipment's For Treatment Process

Iron Steel Pens - Jimmy: - This instrument has a very important contribution in MHRA health testing method. Information related to all internal activities, actions, emissions, balance of hormones, development, inhibition or blockage of all the activities of the human body from the head to the toes with the help of the points and reflection focal points by iron steel pen, nervous system Under the central nervous system, peripheral nervous system and autonomous nervous system, it is known that central Rows The system is divided into three parts: the Brain Four brain, mid-brain, hind brain, likewise lived MCRS - "middle cerebral root solutions to the mid-brain has been invented." Under which natural beings are capable of stimulating, controlling, balancing, creating amazing mystical energy power. It is known as intermediate lobs from the point of view of medical education where only and only natural is controlled. The MHRS method is known to have any type of blockage, blockage, injury, breakdown, swelling, rheumatism, blood congestion, flexibility, severe pain, tightness, dryness, hard, soft skin, insensitive in the nervous system and muscles. Or other type of irregular shape - in addition to feeling the type, sharp pain is felt at the main point of iron steel pen, which is different type of pain. which is ascertained on the basis of experience that all the internal activities, functions, related to the organs can be identified and tested properly. If any type of deformities has occurred in it, then information is obtained quickly and along with proper counseling and treatment, medicine-health services are provided by MHRS method. The results obtained by the MHRS health test method are almost identical to the reports obtained by the modern test method MRI CT scan x-ray solography ECG EEG which is increasing confidence in people. Thereafter simple and affordable medical facilities are being provided which are proving reliable achievements in the field of health. It is based on the "Arogya Path", Research, Training and "Ashtanga Yoga" Meditation based on ancient Indian disciplines.

F. Vibrator Machine

Vibrator machine used by MHRS method for health benefits is known as a magnetic device which has 13 types of attachments which are easily available in the market of equipment manufactured at ACS Group Company. Whose different work is done for health benefits? This in a way is the main contributor to the internal and external blood circulation of the human body, which has a special role in maintaining health and longevity health. In which there are no physical side effects. To understand briefly, a magnetic motor is found in a vibrator machine such as: - It acts like the dynamo of scooters and other machines. This causes vibrations or vibrations to be felt which produce magnetic force which indicates that the magnetic current is flowing. Which we use magnetic power by MHRS method to increase blood circulation with the help of the attachment devices of the vibrator machine, while doing special work in the process of blood purification, the harmful substances in the blood soluble as sweat from the body through the pores of the skin. In the body, the residual substance through the body system starts coming out through the urine. Due to which one feels lightness, suppleness and energy in the body. At the same time, the immune system starts increasing rapidly. Due to which, the health benefits are provided by helping to cure the malformations produced in the human body soon. Due to the improvement in the breakdown of cells from the injury caused in the body, swelling, flexibility, intense pain and irritation, and regularization of blood circulation in the suppressed veins, the beauty in the body is naturally restored by the power that exists naturally. And it starts strengthening. Due to which the deformities arising in the res active organs are removed. This is proving to be effective as a natural mystical medicine.

G. MHRS Treatment method

MHRS modern operation method literally means human body without any tools, surgery, results obtained by MHRS technology by modern health testing method and modern test method MRI CT scan x-ray. Based on the reports received from various other solography tools, for the early recovery of malformations in the human body, M. Using special task Cars, the vacuum cup vibrator machine causing any damage without the distortions occurred in various parts of the central nervous system based on electro-Point detector smoothly and without any medication taken injecting the suppressed nerves, resilient the flexible muscles and nervous system naturally to the former position by strengthening the blood purification system with no physical side effects. This method is simple and inexpensive which is proving to be a boon for human health. By MHRS method, the blood circulation system is controlled and controlled by the breakdown and blockage of cells in the regenerating organs, enhancing immunity in the body by increasing disease resistance. Make energy energized so that good longevity can become healthier. To understand this, we need to pay special attention such as “Ashtanga Yoga” Meditation, Yoga Science, proper diet, adopting natural lifestyle, proper use of physical things will improve health soon. To explain this in a nutshell, MHRS method provides about 70% immediate health benefits as an assistant 20 percent from “Ashtanga yoga” meditation and 10 percent assistant from nutritious proper diet, thus totaling 100 percent health benefits by MHRS modern operation method the best medical health available to the human body made from it is proving effective for public welfare.

H. MHRS-- mid Head Root Solution Methodology

It is a hallmark of the unique work done by the Indian youth to contribute to the field of health medical education as a public welfare, to the citizens and the hopeless patients for years, the boon by the “Arogya Path” MHRS based on ancient Indian schools. To save from various incurable diseases and operations, this work was soon extended to the common people in the social interest. Is going Based on the education given by the ancient sages in the field of medical education, it is known that the human body made of five elements is a mysterious, which is naturally controlled by the central nervous system according to the nervous system by modern MHRS method peripheral nervous system. The system is derived from the mid brain based on the autonomous nervous system, which is controlled by natural energy In the middle brain, the intermediate lobes and medulla, “Ambala” get a originate from the nervous system which further extends throughout the body, in which the main arterial vein is a special contribution of the blood circulatory system in the form of a mesh tube of the small veins. Cervical vertebra 5, thoracic vertebrae 12, lumbar vertebrae 5, sacrum vertebrae 5, coxial vertebrae 4 there are a total of 33 vertebrae. Whose relation blood circulation in the internal organs of the body, balance sensations, information, neuron cell, etc. all functions are done naturally. Appropriate health benefits and guidance are provided through the MHRS system.

III. CONCLUSION

If there are irregularities, imbalances in the organs related to any obstruction or blockage, then other diseases start to occur in the organs related to it. This is called diseases. Such as: - Other serious diseases like paralysis, arthritis, hormonal imbalance, heart disease, blood pressure, sugar, abdominal disorders, urinary disease, mental diseases, bone diseases, weakness in muscles, irregularity in breathing, etc. MHRS is a simple and inexpensive medical method for the above health benefits, which results in health tests soon. Due to which prevention and distortion in human body can be saved and precious life can be saved by giving proper counseling and guidance. For this purpose, striving for human welfare, high quality harmless MHRS is becoming reliable, powerful and effective.
